

Train the Trainer Seminar

WHAT IS TRAIN THE TRAINER?

The Train-the-Trainer Seminar is based on Gold Standard German "Ausbildung der Ausbilder", which is recognized in 35 countries.

This seminar concept was specifically designed to make apprenticeships successful. It combines hands-on experiences and real world scenarios to empower your skilled leaders. Upon successful completion, participants **receive certification as an internationally-approved trainer for apprenticeships**. Doing and teaching are distinct skills, and an expert is not always a great teacher. Even when the conditions for learning are great in a company, if trainers don't have practical tools and techniques on hand to transfer their knowledge, a huge amount of money and resources can be wasted. Trainers need practical skills to transfer their knowledge and ensure effective learning – and that is where Train the Trainer comes into play. This 3-day seminar is designed to help trainers communicate and train more effectively.
